

## DEVELOPING A MENTALLY-HEALTHY VETERINARY PRACTICE

### A workshop for leaders and influencers

The veterinary practice environment can be a minefield of psychosocial hazards. Challenges to our mental health include long hours, difficult clients, vicarious trauma and managing interpersonal issues in the team.

Join Rosie Overfield for an evidence-based practical workshop to build your skills and strategies for developing a mentally-healthy workplace. This one-day program will help participants to:

- Understand the WHS legislation as it relates to psychosocial hazards and work-related stress
- Develop a mentally-healthy workplace strategy and team training program
- Act quickly to support and manage mental health problems
- Build the confidence and competence of workplace leaders to support positive mental health and wellbeing in practice

All workshop participants will receive a Mentally-Healthy Workplace Toolbox that will include a free wellness plan, training calendar, mental health first aid resources and human resource tools.

### Meet the speaker...

#### Rosie Overfield

Acknowledged as a trusted workplace advisor, Rosie provides HR and workplace wellness consultancy and coaching services to both individuals and organisations. She regularly speaks and trains across Australia and New Zealand in areas such as leadership, resiliency, emotional intelligence, communication and workplace wellness design. Rosie is also the Australian Veterinary Association's Mental Health First Aid instructor and is a qualified counsellor, with a Bachelor of Communication and a Master of Human Resources and Organisational Development.
