

Workplace Health and Safety Manual

Protect the future of your practice!

A safe, healthy workplace with fewer injuries and illnesses will not only increase employment stability but also increase staff productivity. Protect the future of your practice with our comprehensive Workplace Health and Safety Manual.

Crampton Consulting Group can provide you with a tailor-made e-manual allowing easy integration with practice specific information. Your Manual will include a safety induction training module, a 12 month workplace safety plan and a suite of relevant policies, templates and reporting forms.

Benefits to your business include:

- Improved awareness of your legal responsibilities in workplace health and safety
- Assists with compliance requirements via ready-to-use forms and templates
- No need to write your own WHS policies as they are included

Find out more online:
